Complete the following sentence: Belgium is ...

1

Belgium is an empty place that is not much more than a village.

2

Belgium is the best nation in the world, but is it really?

3

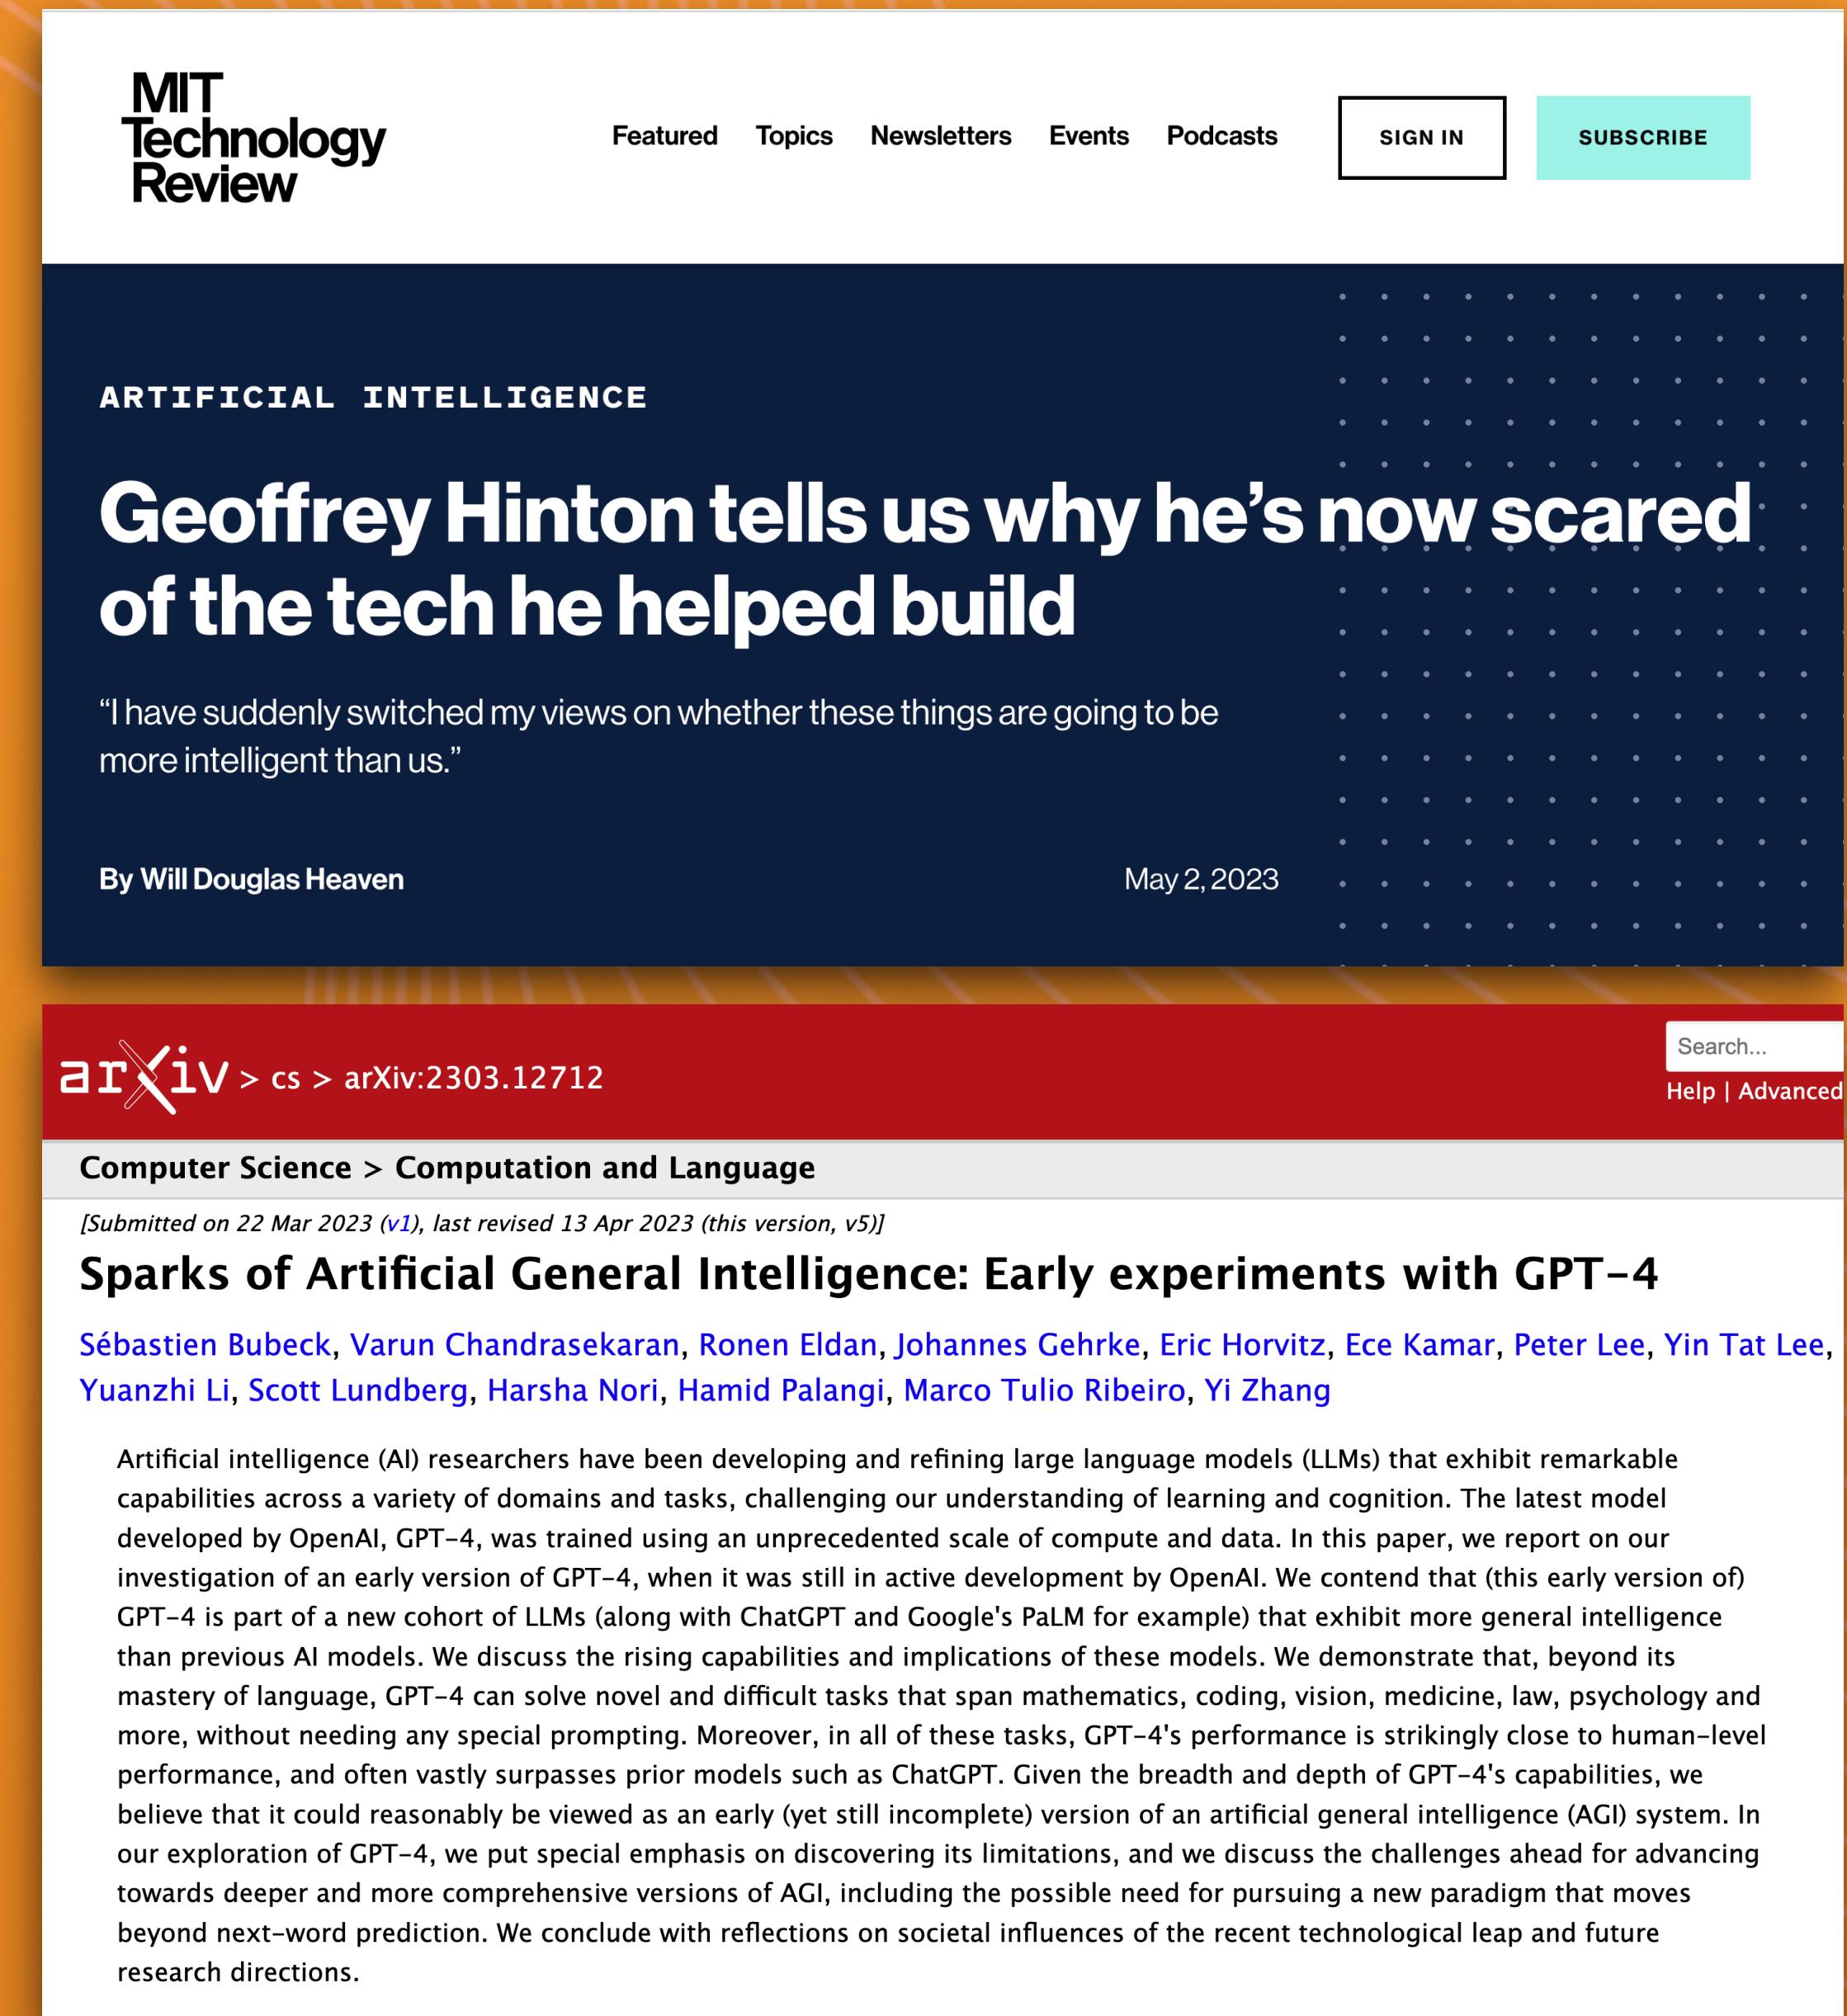

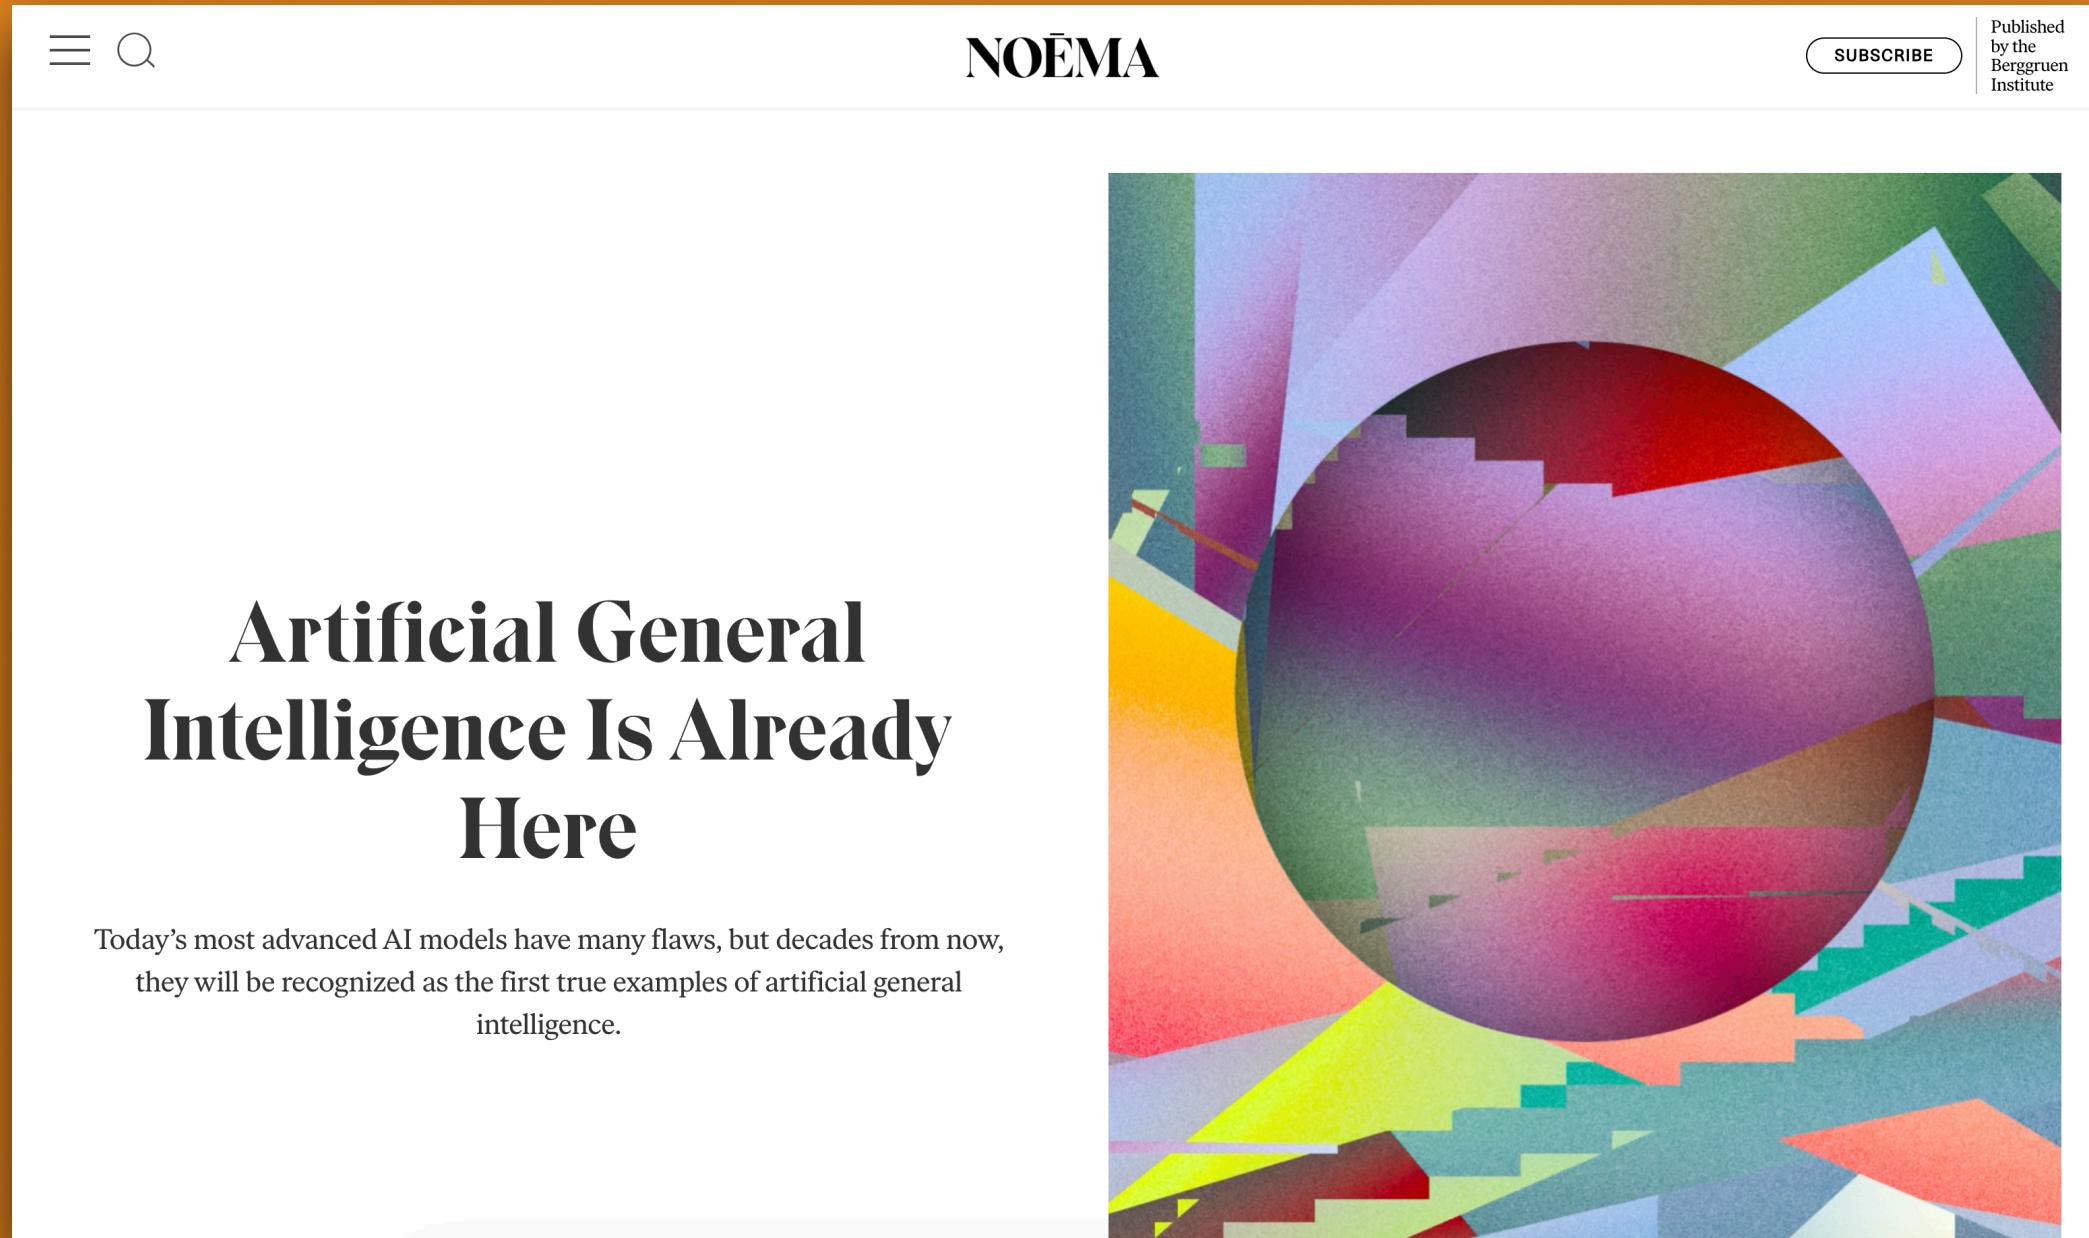

Belgium is known for its rich cultural heritage, delicious cuisine, and world-famous chocolate.

Belgium is a country in Western Europe known for its delicious chocolates, waffles, and fries, as well as its famous landmarks such as the Atomium and the Grand Place in Brussels. It is also home to the headquarters of the European Union and NATO. [...]

## Summarisation

Italy, officially the Italian Republic, is a country in Southern and Western Europe. It is located on a peninsula that extends into the middle of the Mediterranean Sea, with the Alps on its northern land border, as well as islands, notably Sicily and Sardinia. It is the tenth-largest country in Europe, covering an area of 301,340 km<sup>2</sup> (116,350 sq mi), and third-most populous member state of the European Union, with a population of nearly 60 million.

Italy is a large European country.

## Question answering

What is the capital of Italy?

Rome.

# Question answering

## Parametric knowledge

Models are trained over data which contains facts and opinions.

Large enough models encode some of this knowledge.

## Fine-tuning

Domain-specific dataset is constructed.

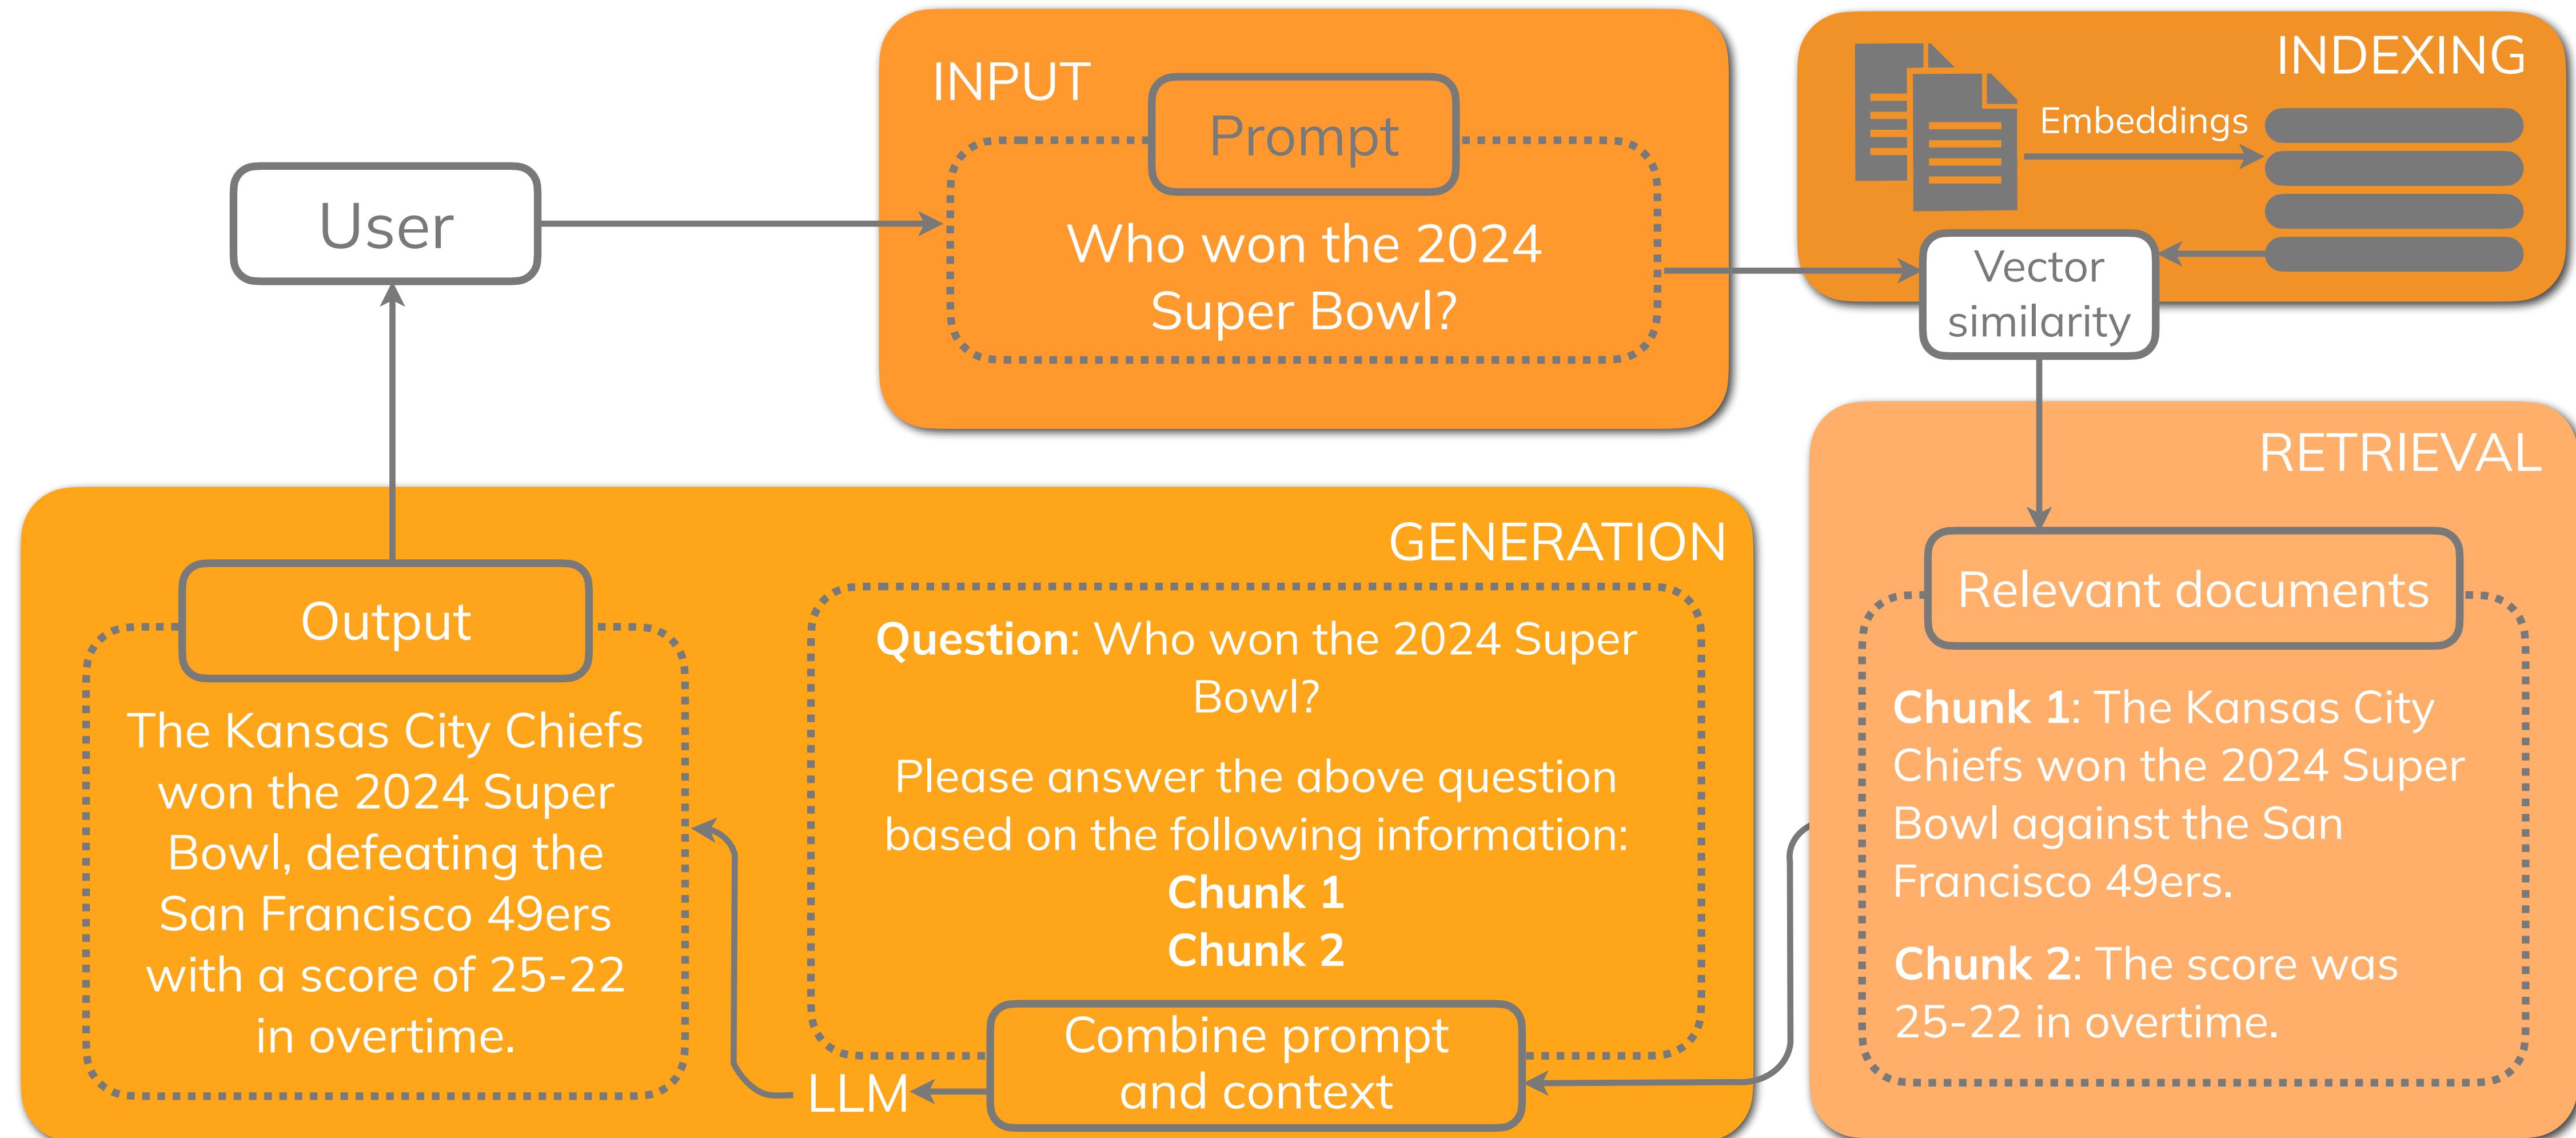

LLM is further trained so outputs are in line with this dataset.

## Retrieval augmented generation (RAG)

Context that is similar to the input is gathered.

LLM is instructed to use this as part of evaluation.

# Retrieval Augmented Generation

# RAG (and LLM deployment) ain't easy

## ISSUES WITH RAG

- Chunk size
- Creating document embeddings
- Retrieval method
- Creation of prompt

## ISSUES WITH LLMs

- LLM is not able to complete target task well

Poor quality answers  
Hallucinations
